## WARRANTY INFORMATION

All bathroom ware products supplied by Nouera Shower systems carry our Quality Assurance and Product Warranty. We use the highest quality materials available and manufacture these in accordance with New Zealand specifications and requirements to ensure that all products are fit for the intended purpose for which they are designed. Our customers Peace of Mind is of paramount importance to us.

### Warranty Periods

|                          |          |
|--------------------------|----------|
| Baths                    | 10 years |
| Showers                  | 10 years |
| Shower Screens and Doors | 10 years |

### Warranty Exclusions

The product must be installed according to the instructions supplied.  
The water supply temperature applied to the product must not exceed 55 degrees Celsius.  
Commercial Applications are restricted to a 2 year warranty on all products."

## PRODUCT MAINTENANCE

Bathroom products are used often and the following is our suggestion on how to clean and care for them.

### Shower Wall

We use Durosan premium quality sanitaryware grade Acrylic. It is, by design very robust and chemical resistant. A soft damp cloth with non abrasive cleaners should be used. Use only no abrasive cleaners that are recommended for Acrylic products.

### Shower Tray and Bath

We manufacture our Shower Trays and Baths using a Solid Acrylic Surface. Most other shower trays are manufactured using a veneer Acrylic surface. The great advantage is that small scratches can be removed easily by using fine cutting compound. Again the same basic cleaning methods as the wall are recommended.

### Shower Doors and Glass

All glass is compliant to AS/NZS 2208. We suggest that the glass surfaces are wiped down or Squeegeed following use to remove excess water. For best results use a trusted glass cleaner.

### Metal framework

Should be cleaned using a soft damp cloth with non abrasive cleaner. Note that on round Showers, the bottom rollers are easy release for ease of cleaning. If chemical spray cleaners are used, avoid direct contact with the rollers and guides and ensure the shower is rinsed off to avoid residue build up.

### Weather seals and drip strips

Can be removed if required for cleaning, and can be replaced when they no longer look their best Refer to our spare parts and accessories section of this website for more details.

**Note - If the Glass has been treated follow specific cleaning instructions from the system provider.**
