VIDA FREESTANDING BATH

Pictured - Vida freestanding 1675mm bath

SKU - FSBTHVIDA1675

DESCRIPTION

The Vida freestanding bath can be purchased in 3 size variations.

The bath is also designed with a 15mm upstand around its perimeter to aid waterproofing between the bath and the wall linings. This makes it the most simple, and fastest bath to install for a shower over bath solution.

(see your merchant for bath screens and wall lining options)

The upstand is tightly pressed to make liner or tile installation easy, and watertight.

The Vida features solid mounted support feet which must be attached to the floor to support the base of the bath.

FEATURES

- Bath surface is 100% Solid acrylic
- 15mm pressed upstand around perimeter of Bath
- Generous bathing / showering area
- Fibreglass reinforced
- Bath stands on support rings

WARRANTY INFORMATION

All bathroomware products supplied by Fibre Systems carry our Quality Assurance and Product Warranty. We use the highest quality materials available and manufacture these in accordance with New Zealand specifications and requirements to ensure that all products are fit for the intended purpose for which they are designed. Our customers peace of mind is of paramount importance to us.

Warranty Periods
Showers   10 years
Drop In baths   10 years
Shower Screens and Doors   10 years
Black Coating on Framework   5 years
Freestanding Baths   5 years
Accessories   2 years

Warranty Exclusions
The product must be installed according to the instructions supplied.
The water supply temperature applied to the product must not exceed 55 degrees Celsius.
Commercial applications (where products are installed in a building where occupancy is via a commercial arrangement i.e. rental property, hotel, hostel etc.) are restricted to a 2 year warranty on all products.

CLEANING AND MAINTENANCE

Bathroom products are used often and the following is our suggestion on how to clean and care for them.

Shower Wall
We use Durosan premium quality sanitaryware grade Acrylic. It is, by design, very robust and chemical resistant. A soft damp cloth with non-abrasive cleaners should be used. Use only non-abrasive cleaners that are recommended for acrylic products.

Shower Tray and Bath
We manufacture our Shower Trays and Baths using a Solid Acrylic Surface. Most other shower trays are manufactured using a veneer acrylic surface. The great advantage is that small scratches can be removed easily by using fine cutting compound. Again, the same basic cleaning methods as the wall are recommended.

Shower Doors and Glass
All glass is compliant to AS/NZS 2208. We suggest that the glass surfaces are wiped down or squeegeed following use to remove excess water. For best results use a trusted glass cleaner.

Metal Framework
Should be cleaned using a soft damp cloth with non-abrasive cleaner. Note that on round showers, the bottom rollers are easy release for ease of cleaning. If chemical spray cleaners are used, avoid direct contact with the rollers and guides and ensure the shower is rinsed off to avoid residue build up.

Weather Seals and Drip Strips
Can be removed if required for cleaning, and can be replaced when they no longer look their best. Refer to the spare parts and accessories section of our website for more details.

Note - If the Glass has been treated follow specific cleaning instructions from the system provider.
