**SHOWER
COLLECTION**

02/2026

SUPPLYING HIGH QUALITY PRODUCTS FOR OVER 35 YEARS

Fibre Systems is 100% New Zealand owned and operated. The people in our team are just like you. We're Kiwis that build new houses and renovate old ones, and we know what we're looking for when it comes to showers.

That's why Fibre Systems has the largest range of shapes, sizes and door options of any single supplier in New Zealand.

We've been around for over 35 years, and plan on being around for a lot longer. That's why customer satisfaction is at the top of our priorities when it comes to our products and after sales support.

Here's a few things we do a little differently to provide the best product and best support to you...

7 - STAR QUALITY IN EVERY PRODUCT

★ **Dual Carriage Metal Top and Bottom Rollers**
 Smooth open and close action, easy and precise adjustments on top roller, releasable for easy cleaning.

★ **Safety - Symphony Doors Feature Quality Safety Glass**
 Manufactured under licence compliant to NZ AS/NZ S2208 Safety Standards.

★ **All Walls are 2mm Durosan® Premium Acrylic**
 One piece quality sanitaryware acrylic walls. Manufactured in Europe to En263 and En13559 standards, approved for NZ conditions. Tested and approved by Sika NZ www.sika.co.nz.
 Folded and moulded in New Zealand.

★ **Easy to Clean**
 Our Showers all feature removable easy to clean seals. Invisible silicone joints between frames and glass, and no internal silicone joints to provide years of mould free easy to clean durability.

★ **All our Trays have a 40mm High Upstand**
 For maximum water protection.

★ **All Trays are solid Acrylic construction**
 Robust solid acrylic construction, professionally repairable and are easy to re-finish. They feature corner drains and solid support feet.

★ **Designed to be installed in NZ homes**
 Symphony Showers are designed to be easy to install. All models have built-in adjustment to aid installation into renovations and older homes.

YEARS OF LEAK-FREE SHOWERING, GUARANTEED!

All bathroomware products supplied by Fibre Systems carry our Quality Assurance and Product Warranty.

We use the highest quality materials available and manufacture these in accordance with New Zealand specifications and requirements to ensure that all products are fit for the intended purpose for which they are designed. Our customers' peace of mind is of paramount importance to us.

Warranty Periods

Drop in Baths	10 years
Showers	10 years
Shower Screens and Doors	10 years
Black-coated Frames and Components	5 years
Freestanding Baths	5 years
Dezine Range	5 years
Accessories	2 years

Warranty Exclusions

- The product must be installed according to the instructions supplied.
- The water supply temperature applied to the product must not exceed 55 degrees Celsius.
- All cleaning and cleaning products must be in accordance with our cleaning instructions and guidance.
- Commercial applications (where products are installed in a building where occupancy is via a commercial arrangement i.e. rental property, hotel, hostel etc) are restricted to a 2 year warranty on all products.

THE DIFFERENCE BETWEEN US AND THE REST IS....

Simple really, we treat our customers the same as we like to be treated.

It sounds like a cliché but it's our ethos. We don't have call centres which don't call you back, or phone numbers which leave you on hold for hours. We have a team of staff who have worked with us for a long time. Everyone in our team knows our product. Additionally our Sales team are our technical team. Each member is trained to install products and diagnose issues, so there's always someone at the end of the phone or who can visit your site and see what's going on.

We don't like fine print. Our warranty stands whether you have installed the product or a professional has. As long as it has been installed and maintained in accordance with our installation and cleaning guide, then it's covered.

We don't like issues. We design our products to be installed easily and to be adjustable. We have learnt from our experience, not every wall is perfectly straight and not everybody has a PhD in Astro Physics!

We back our product. We do not run away from issues, and if an issue is the result of poor or incorrect installation we will work with the installer to advise how to put it right. We also provide a full spare parts inventory at affordable prices.

Some friendly advice...please ensure you have ordered and received the correct products for your new shower install before you remove your current shower! Mistakes and delays happen from time to time and it could save you being without a shower for a longer time than anticipated.

SOMETIMES HAVING THE LARGEST RANGE OF PRODUCTS IS STILL NOT ENOUGH FOR EVERY BATHROOM. THATS WHY ALL OUR SHOWER COMPONENTS ARE DESIGNED TO SUIT VARYING INSTALLATIONS.

TILED WALL AND FLOOR INSTALLATION

All of our shower doors can be installed onto tiled floor and walls. This removes the need for special custom glass doors which:

- Saves time and labour
- Reduces risk or costly errors
- Provides a fully watertight solution
- Have a full spare parts backing

BEFORE YOU INSTALL YOUR SHOWER, THERE ARE SOME IMPORTANT POINTS YOU NEED TO REMEMBER

- When tiling shower walls and floors, you should always consult with your local Council as you will almost certainly need a consent
- You **MUST** have a fully certified membrane installed by a certified installer
- The shower fall or hob must be made to the specification of the door set (please refer to our spec sheets for this detail)
- Work alongside your Plumber and Tiler to plan what style of waste and its location
- Wall channels must be fitted to the walls **prior** to tiling
- How will you ventilate the shower? Most tiled showers incorporate frameless doors which do not suit Shower Dome installations

Pictured here - Black Framed Aquero Pivot Door onto hob-less tiled floor and wall.

Pictured here - Black Premier Frameless Sliding Door 1200x800 onto small hob, tiled floor and walls.

TILED WALL WITH ACRYLIC TRAY INSTALLATION

All our shower trays are designed with a 40mm high upstand which provides a watertight sealing perimeter for tiled walls. It also means an easy clean and robust floor with preformed drainage fall, and a simple Easyclean Waste can be installed.

To complete the look, our doors can be installed onto the tray and tiled wall.

- Saves time and labour
- Reduces risk or costly errors
- Provides a fully watertight solution
- Easy to clean robust flooring system which includes an Easyclean waste

BEFORE YOU INSTALL YOUR SHOWER, THERE ARE SOME IMPORTANT POINTS YOU NEED TO REMEMBER

- When tiling shower walls and floors, you should always consult with your local Council as you will almost certainly need a consent
- You **MUST** have a fully certified membrane installed by a certified installer
- Wall channels must be fitted to the walls **prior** to tiling
- How will you ventilate the shower? Most tiled showers incorporate frameless doors which do not suit Shower Dome installations

Pictured here - White Premier Frameless Sliding Doors with tray and tiled walls. White frame compliments coloured tapware well.

PINNACLE TRAYS AND WALL LININGS

The Pinnacle series of shower trays and wall linings is the latest release from Fibre Systems and is our largest step forward in innovation and design.

Pinnacle Shower Trays utilise new technology and materials to reimagine natural durability and strength. These trays provide consumers with an affordable, easy to install, low profile alternative to standard acrylic trays. Available in 4 naturally finished colours - white, grey, black and marble.

Pinnacle Wall Linings provide consumers wider choice and flexibility in lining wet walls. The wall linings provide the look of tiles or other finishes but without the hassle and cost associated with installation and maintenance. Available in designs such as gloss white subway and hex tile patterns, vertical tiles and slate stone made to match the Pinnacle shower tray series in finish and colour.

Pinnacle Trays and **Wall Linings** can be purchased individually or are available as an upgrade option to most Symphony Shower Cubicles (some tray sizes are not available).

Please refer to the separate **Symphony Pinnacle Collection brochure** or the **Symphony Showers website** (www.symphonyshowers.co.nz) for more information and complete range available.

Symphony Premier Frameless Pivot Black Shower 900x900mm with Grey Pinnacle Tray and Pinnacle Hexagon Gloss White Wall Lining

Symphony Premier Frameless Sliding Door Shower with standard Acrylic Tray and Pinnacle Subway Gloss White Wall Lining

STORAGE OPTIONS

Wall/Tile Niches

SMC Wall/Tile Niches are the ultimate space saver and make it easy to keep shower products within reach.

Wall Niches - designed to be installed in virtually any wall substrate. Wall Niches are a durable, cost effective storage solution for any shower enclosure. Modern design in high gloss white to match Subway and Hex Tile Pinnacle Wall Lining (colour does differ from acrylic white).

Model		SKU
991mm x 407mm	3 storage shelves	WNS991X407
686mm x 407mm	2 storage shelves	WNS686X407
355mm x 407mm	1 storage shelf	WNS355X407

Tile Niches - designed to provide a watertight substrate ready for waterproofing and tiling. Tile Niches are a fast and effective way to add a storage solution to any tiled wall.

Model		SKU
508mm x 407mm	2 storage shelves	TNS407X508SHELF
508mm x 407mm	1 storage shelf	TNS407X508

Moulded Wall

Moulded liner storage is an option for the majority of showers (some liner sizes, bath liners and custom liners are not suitable for moulding).

Moulding on back wall

Mid Shelf Depth 70mm
Bottom Shelf Depth 50mm
Moulding is **NOT** recessed

Remember to plan storage into your shower's design. We have a wide range of options:

Glass Shelving (refer page 32)

Stainless Steel Corner Shower Caddy (refer to page 30)

Stainless Steel Hanging Caddy (refer to page 31)

Left Hand Tray Configuration

Right Hand Tray Configuration

The Left Hand (LH) and Right Hand (RH) options on an Unequal 2 Sided Shower refer to the tray configuration (e.g. where the upstands are on the tray). It is important to get this correct so please consult a professional if unsure. This applies to all Symphony Unequal 2 Sided Showers.

PREMIER FRAMELESS 2 SIDED SLIDING DOORS ONLY

Door sets can be purchased separately for installation on a tiled wall and/or floor.
